Ethernet

Yedek Ethernet
Port

The communication interface is designed as a 9-pole SUB-D socket.

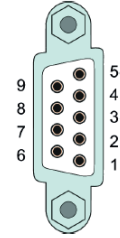

Figure 5: Communication Interface

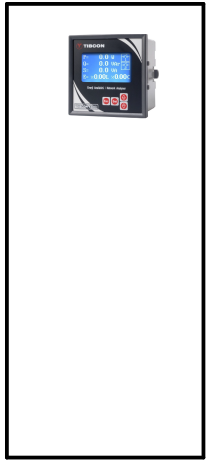

Table 1: Pin Assignment of Communication Interface

Contact	RS-485	
	Signal	Description
1	NC	Not assigned
2	NC	Not assigned
3	A (Tx/Rx+)	Transmit/receive data +
4	NC	Not assigned
5	FB_GND	Ground
6	FB_5V	Power supply
7	NC	Not assigned
8	B (Tx/Rx-)	Transmit/receive data -
9	NC	Not assigned
Housing	Shield	Shield

The communication interface has a two-stage, on/off switchable bias network (1) and an on/off switchable bus termination resistor (2).
